

Sat-Light Platinum Series

PL7CD30T / PL7CD30R4 C-Band Optical RF Link

Features & Benefits

- Supports up to a full 4dB optical budget
- C-Band frequency range: 3400–4200MHz
- Powerful management capabilities via a front panel LCD and rack mounted SNMP
- User monitoring and control of required IMD levels
- Variety of RF and optical connectors
- 1550nm and CWDM ITU Grid laser options are available for longer fiber runs and single fiber multiplexing solutions

Product Description

Global Foxcom's Platinum C-Band products are designed to meet the increasing demand for modularity and high-performance in a small form factor for superior long-distance transmission. With high RF input power and wide dynamic range, the link is designed to provide full specification service up to a full 4dB optical budget with the PL7CD30R4 receiver.

Utilizing Global Foxcom's **DigiRF** technology, the user has full control of all important functions for setup, operation, and analysis via the front panel LCD or via the associated sub-rack SNMP capability.

In addition **IMizer**, an automated adjustable link calibration embedded system, enables the user to align the RF links IMD/CNR to specific linearity performances without a two-tone test. Select the desired IMD for the optical transmitter, either locally or remotely, **IMizer** automatically adjusts the laser drive to meet the IMD requirements.

Each low profile individual transmitter or receiver can be "hot swapped" in the sub-rack chassis maintaining the best subsystem uptime capability. Each module contains an individual processor to maximize specification performance at all times under demanding user applications.

The **PL7CD30T** transmitter and **PL7CD30R4** receiver are designed for chassis mounting. The associated Platinum chassis, model PL7010, has 12 active slots, one main control processor (MCP) slot and two redundant power supplies. No fans are required even under full sub-rack loading and full LNB powering.

Sat-Light Platinum Series

Specifications

Wideband PL7CD30T / PL7CD30R4 Optical RF Link
